

verenajst art

minimalist

abstract

refined

i am verena joist and a passionate part-time artist based in hamburg, exploring the balance between abstraction and minimalism. inspired by nature, i work with color, form, and texture to create pieces that invite reflection and evoke emotion. through each piece, i am to create a quiet yet powerful visual experience that resonates with the viewer. i enjoy experimenting with different materials and techniques, always seeking to express movement, depth, and simplicity in my art.
